Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Opens the Smart Lender application. - Enters personal and financial details. - Submits the loan application.	- Waits while the system processes the data. - The model evaluates the applicant details. - Prediction is generated automatically.	- Views the loan approval/rejection result. - Understands the prediction outcome. - Decides the next step based on the result.
Touchpoint <i>What part of the service do they interact with?</i>	- Smart Lender home page. - Loan application form. - Submit button.	- Flask web application. - Machine learning prediction model. - Processing screen.	- Result page. - Approval/Rejection message. - Recommendation or confirmation message.

Customer Thought <i>What is the customer thinking?</i>	• "Is the application easy to fill?" • "Have I entered the correct information?" • "Will my loan be approved?"	• "How long will this take?" • "Is my information being evaluated correctly?" • "I hope the prediction is accurate."	• "What is the final decision?" • "If rejected, what can I improve?" • "Can I apply again if needed?"
Customer Feeling <i>What is the customer feeling?</i>	Hopeful	Curious	Happy if approved, disappointed if rejected
Process Ownership <i>Who is in the lead on this?</i>	Loan Applicant	Smart Lender ML System	Smart Lender ML System
Opportunities <i>How can we improve this stage?</i>	• Simplify the application form. • Provide input validation. • Improve user guidance.	• Reduce prediction time. • Improve model accuracy. • Enhance system performance.	• Explain prediction reasons. • Suggest improvements for rejected applicants. • Allow users to reapply after updating details.
