

Project Demo Planning

Date	7 July 2026
Team ID	
Project Name	Smart lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Problem statement	2	Jeevan
2	Architecture	Workflow & ML pipeline	2	Nikhil Hanumantu
3	Frontend Demo	Forms and dashboard	3	Pavithra
4	Prediction Demo	Live prediction	3	Nikhil Hanumantu
5	Testing	Validation & outputs	2	Nihal
6	Conclusion	Future scope & Q&A	2	Nikhil Hanumantu

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the Smart Lender project, explain the challenges of manual loan eligibility assessment, and the need for an AI-based loan prediction system.
2	Solution Overview	Explain the system architecture, dataset, machine learning model, Flask backend, and how user inputs are processed to generate predictions.
3	Live Feature Demonstration	Demonstrate entering applicant details, generating a loan eligibility prediction, displaying risk score and approval status, and showcasing the dashboard/EDA visualizations.
4	Q&A	Answer questions about the ML model, prediction accuracy, project workflow, future enhancements, scalability, and deployment possibilities
